The Story

Once upon a time, on a little star, there was a small, peaceful country called Dream Land. The Dream Spring incident was over and the inhabitants of Dream Land returned to their normal, peaceful lives. Every day, they would eat delicious meals and take wonderful afternoon naps. There was no need to worry about anything since everything was so peaceful.

At night, everyone slept soundly as thousands of stars lit the sky and quietly stood watch over Dream Land. The stars, known for their beauty, became the pride and joy of everyone in Dream Land.

One night, the inhabitants said to one another, "Let's gaze at the star-lit sky and have wonderful dreams tonight." However, when they gazed up into the sky they noticed something was different. The sky was black. There wasn't a single star in sight! The next morning, they were very worried. Everyone became upset and asked each other "What happened to the stars?" "Will we ever see them again?" Then, someone said, "Don't worry! Surely, the sky will be full of stars again!" However, the stars did not return that night, or the night after. Everyone in Dream Land became very sad.

How many nights have passed since they last saw the beautiful, starlit sky? Every night, all they saw was the pitch black sky and no stars. Everyone was in a state of shock. They were so worried that they gradually stopped eating their delicious meals and no longer enjoyed having dreams. Their spirits were sinking fast. Eventually, laughter ceased in Dream Land, and everyone stopped smiling.

Another dark, gloomy night loomed over Dream Land. All sorts of rumors had been spreading, and everyone was saying,

"It looks like King Dedede is behind this." "I bet he's hogging all those beautiful stars for himself!" Could it be that King Dedede is indeed responsible for the missing stars?

If it's true, there's only one hero that can save the stars. Yes, that young hero is Kirby. He comes in with the spring breeze and saves Dream Land in times of crisis.

Kirby sets out for his long adventure to punish King Dedede once 'again and take back the stolen stars. Kirby heads for King Dedede's floating castle. The king has set up many traps in his castle. His servants each have a star and they wait for Kirby's arrival at the castle.

This adventure is full of new and amazing challenges. Good luck, Kirby!

1-Player Game Rules

Information Panel

●Registered Player Name

This shows the name you registered before starting the game.

●Stock (No. of Remaining Balls)

Each player has three balls at the start of the game. Only two of these balls appear in the Stock display. The game is over when a player runs out of balls.

●Hole No.

This shows you the number of the Hole being played.

●Score

This shows you how many shots you've fired so far.

●Energy Gauge

This shows you how much energy you have left. You lose energy for each shot you take and gain energy when you defeat enemies.

●Conditions

This shows you what powers you can now use .

Basic Rules

You must complete all eight courses before you can battle against King Dedede. Each course has eight holes and the total number of shots you took for every eight-hole round becomes your score for that course.

When you complete a course, your score is shown along with the best score for that course. Score high and get a gold, silver or bronze medal. Many prizes are in store for you if you get medals for all 8 courses.

If you want to replay a course to get a higher score, select the desired course using the +Control Pad. See if you can get gold medals for all eight courses!

Unlike golf, the ball cups are hidden from view. When you hit your enemies on the map, they turn into stars. When all of the enemies, except the last one, have been hit, the last enemy will become a cup.

Hit your enemies and turn them into stars.

The last enemy turns into a cup.

The number of strokes it takes you to drop into a cup becomes your score.

Energy Gauge

A player loses an energy tomato for every stroke made.

Defeat an enemy and get one tomato.

Drop your ball into a cup and get one tomato.

Each time you hit Gordo or Kracko or enter into a danger zone, you lose one tomato.

Stock

Each player has three balls at the start of a game. When a player has no tomatoes left, that player loses one stock ball. When a player accidentally drops a ball outside the course, that player loses one stock ball. The game is over when a player runs out of balls.

When a player hits a hole-in-one, that player gets 1 tomato.

Hole-in-One

✱ A player can move to the next course with two stock balls if that player completed the previous course with no balls or only one stock ball remaining. A player can move to the next course with all remaining balls if that player completed a course with more than three stock balls left.

Shooting the Ball

Shooting Order

1 Scrolling the Screen

You can scroll through the screen to see how many enemies there are and to see where they are on the map. Hold down the Y Button and use the +Control Pad to move the screen in all four directions.

2 Setting the Guideline

You can mark your target by using the +Control Pad to move the guideline for your ball.

3 Spin Panel Setting

You can use the guideline to see how your ball will move when you make it spin. You can skip this step if you don't want your ball to spin.

4 Shot Panel Settings (B Button Cancels Your Selection)

To open the Shot Panel and shoot your ball, press the A Button. First, determine how much you want your ball to spin. There are two different spin settings.

◆ Roll

To make your ball spin sideways, move the bar by pressing ← or → on the +Control Pad.

Bar

◆ Fly

To make your ball spin forwards or backwards, push ↑ on the +Control Pad, then press the A Button. You can also move the bar to create combination Roll spins.

Marker

5 Activating Power Shots (Roll & Fly)

Once you have your shot selected, activate the power meter by pressing the A Button.

*** The power meter will move back and forth only once.**

(L & R Buttons/Right Angle Movement)

Moves the guideline sideways by 45°

(OB Display) The characters "OB" appear on the screen when you shoot your ball off course.

To extend the guideline, press ↓ on the +Control Pad. This comes in handy when trying to make a long shot.

Spinning Balls

You can make the ball move in different directions by making your ball spin when you shoot. The Roll shot lets you spin the ball sideways while the Fly shot lets you spin the ball sideways as well as forward and backwards.

Horizontal Spin

To determine how the Shot Panel bar moves, press ← and → on the +Control Pad. To get a faster left spin, move the bar further left. To get a faster right spin, move the bar further right.

Top & Back Spins

The Shot Panel marker moves up and down only for Fly shots. Press the A Button to set where the marker stops. The farther the marker is away from center, the stronger the spin will be. Stop the marker up for top spins, down for back spins. Center the marker for no spin.

Opening the Spin Panel

To display the guidelines for any of the spins, press the B Button to open the Spin Panel. Hold down the B Button and move the +Control Pad to see the guideline you set up.

◆ To make the ball spin sideways, move the bar by pressing ← and → on the +Control Pad.

◆ To give the ball spin a top or back spin, move the pointer pressing ↑ and ↓ on the +Control Pad.

To make a Fly shot, overlap the marker and the pointer in the Spin Panel. Otherwise, your ball will not fly according to the guideline you set up.

Guidelines and Power Setting

To shoot the ball according to the guideline, you must set the power meter to Full Power. Lower the setting when you want a lighter shot. * The power meter turns pink when set to Full Power.

A lower power setting means you have a shorter shot distance.

* The guideline remains unchanged.

After Shooting the Ball

Booster Button

You can give your ball an extra boost after taking a shot. Press the A Button while the ball is still moving, and the ball will move even faster.

Press the A Button when the ball starts to bounce or when the ball bounces off a bumper.

Moves only a short distance

Press the booster button to move even faster

To make your ball roll over a flat distance a little farther, hold down the A Button.

Roll

Hold down the A Button

You can make your ball bounce even farther after taking a Fly shot over a flat surface. Press the A Button at the correct time.

Bounce

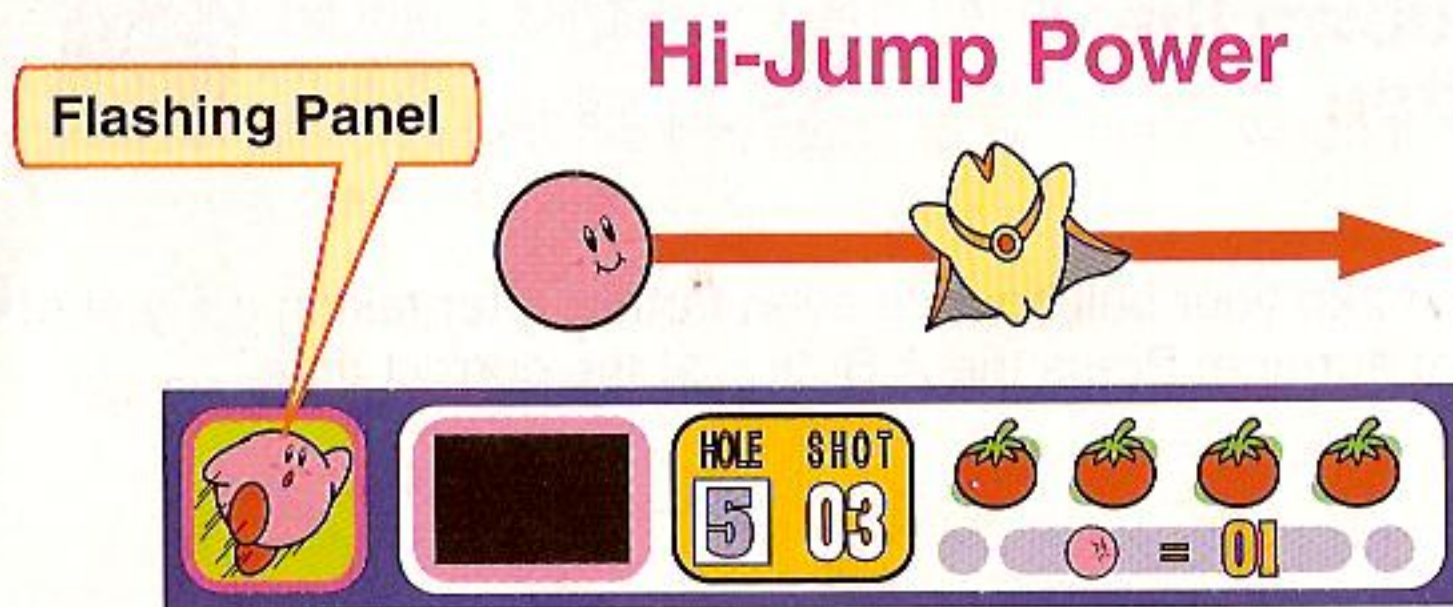

Press the A Button at the right time

You can bounce your ball over water using a Roll shot or a top spin-Fly shot. To make your ball bounce even farther, press the A Button just before it bounces over the water.

Turn your enemies into stars. If they have special powers, they become yours. When the Conditions panel, flashes it shows you what powers you have. There are ten types of enemies, with special powers, that flash continuously in each course.

- * Kirby flashes when you get special powers in a course.

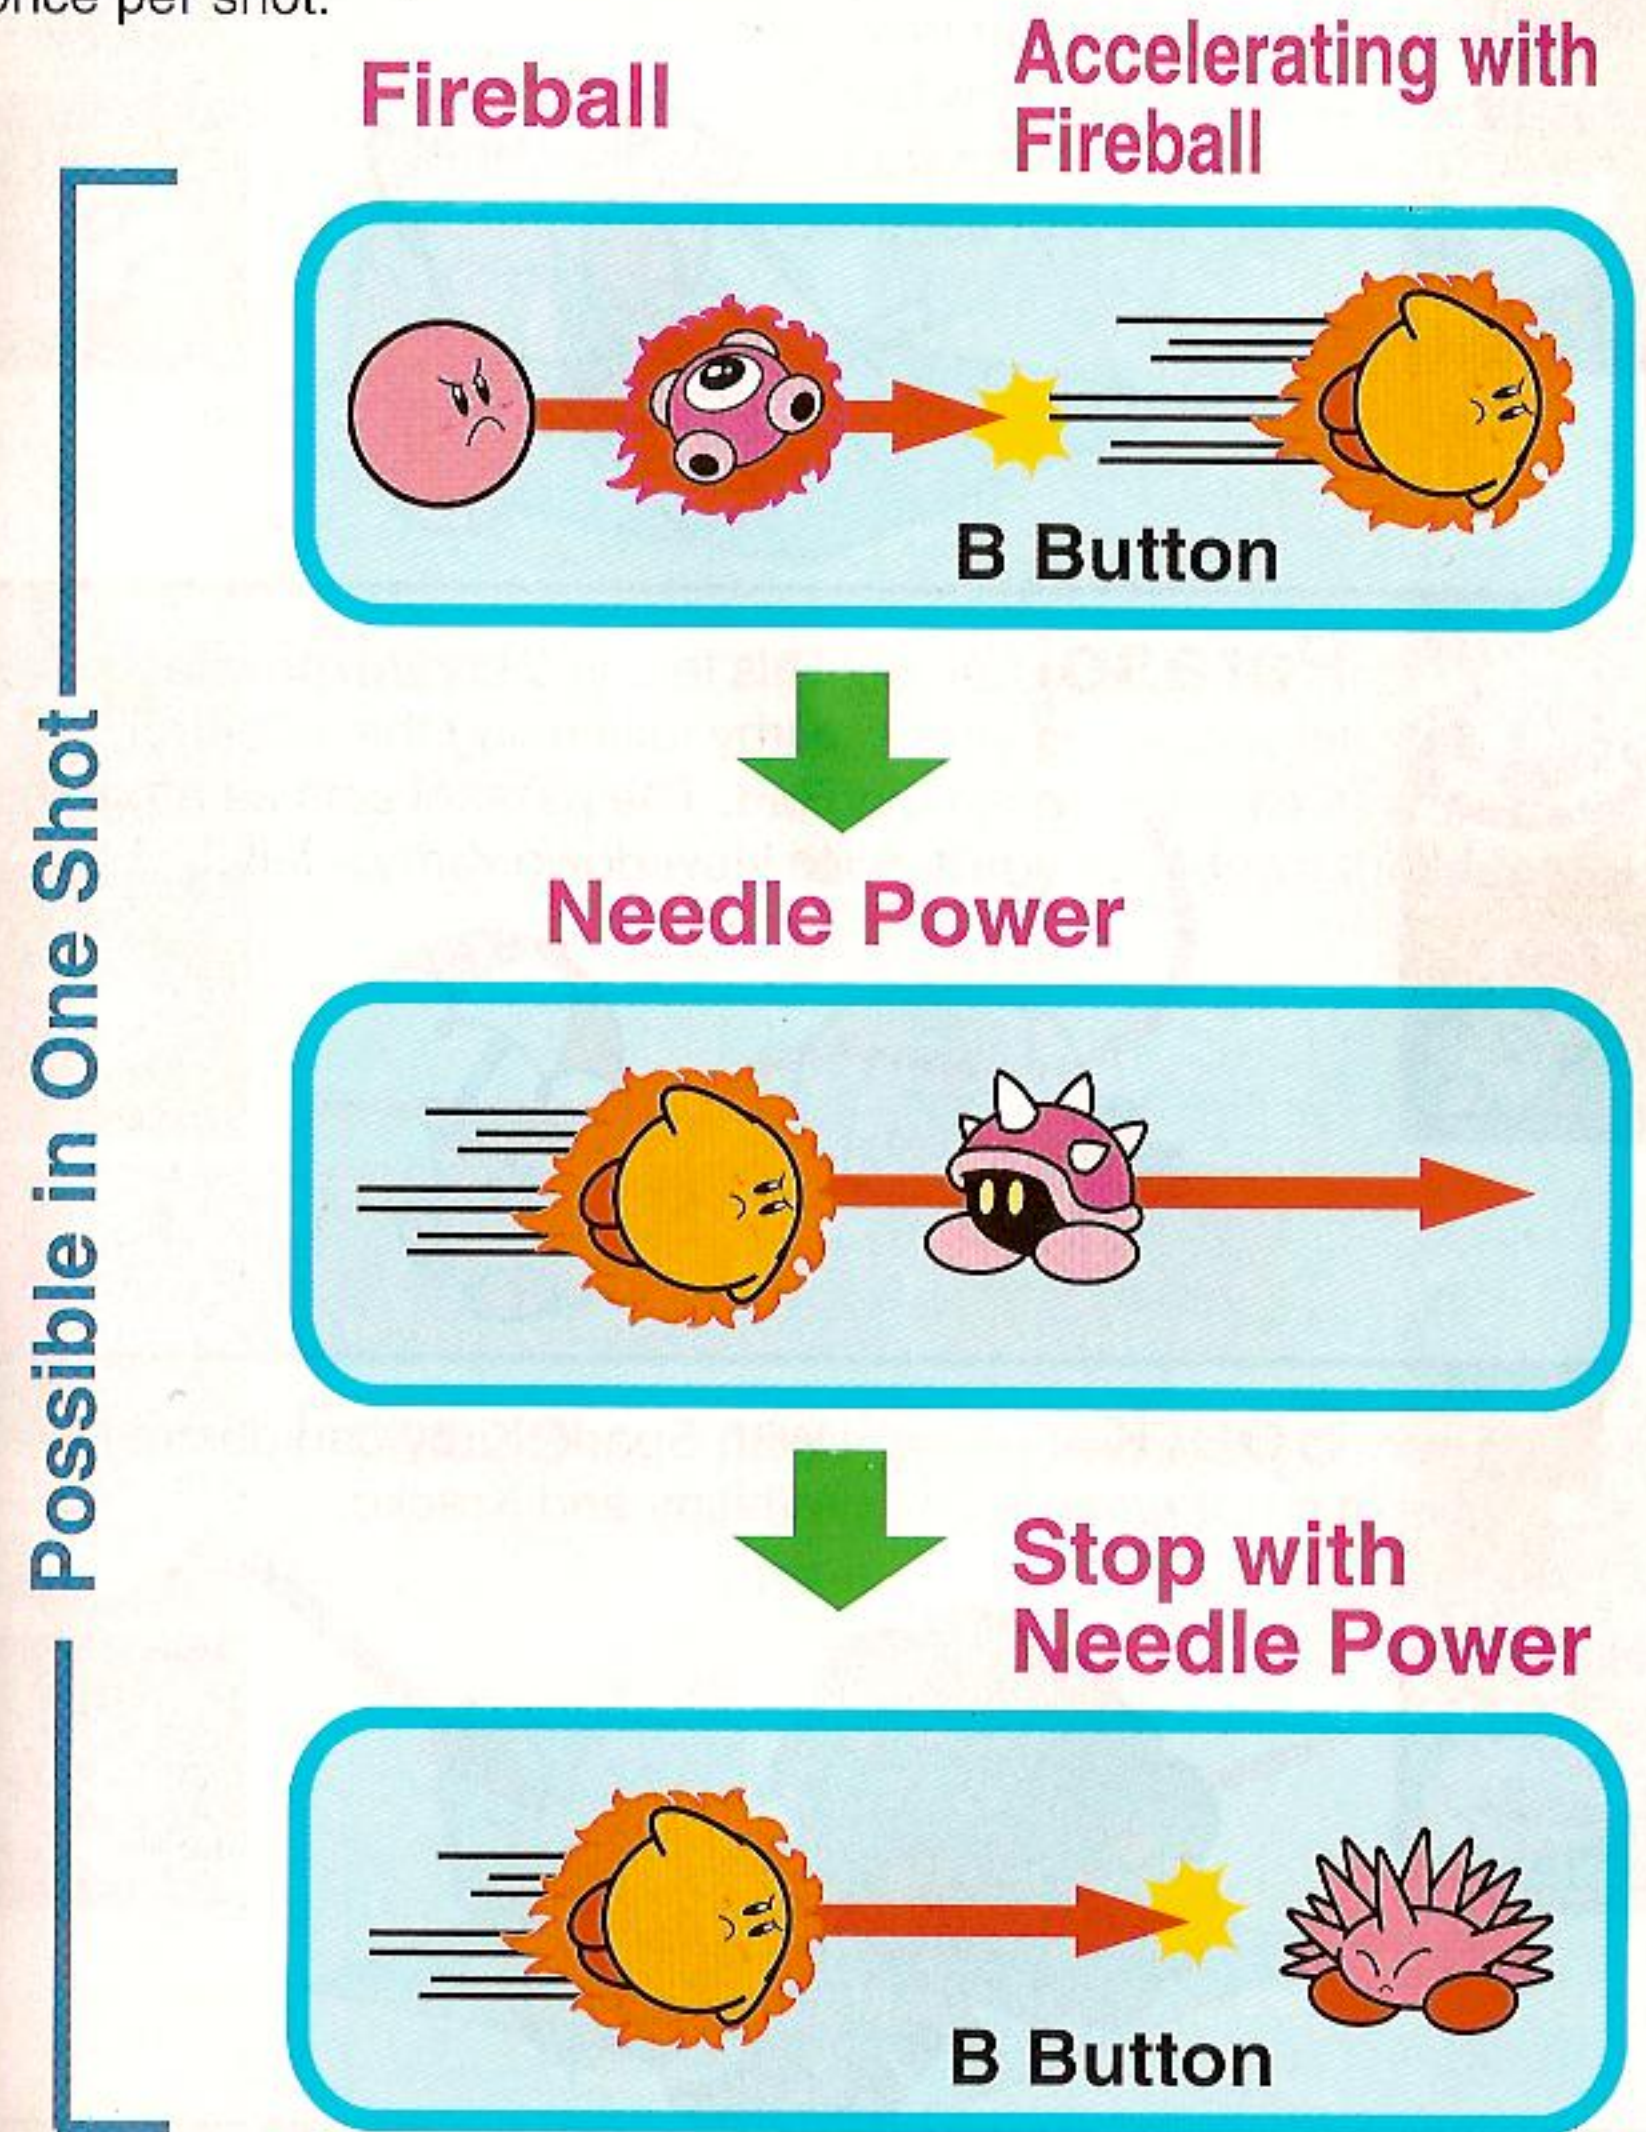

You can use the **B Button** immediately after you get special powers. Press the B Button at the point where you want to use your powers while your ball is still moving.

✱ You cannot use these special powers when Kirby is in the water.

If you have special powers when defeating an enemy that has a special power, you may use that additional power for the duration of one shot. However, special powers can be used in succession only once per shot.

Hi-Jump

This lets Kirby jump even higher.

Parasol

This lets you control how fast Kirby falls using the +Control Pad. The parasol acts as a brake to slow down Kirby's fall.

Spark

With Spark, Kirby can destroy Whispy and Kracko.

Wheel

This lets Kirby turn into a wheel and pick up instantaneous speed to whiz over bunkers and areas covered with water. If Kirby rams into a bumper, he flies straight up and comes to a full stop.

Stone

This lets Kirby turn into a rock and immediately come to a full stop. If you use this power on a sloped surface, Kirby falls down the slope.

Freeze

This lets you freeze the surface of the water, allowing Kirby to slide over it.

Tornado This lets you turn Kirby into a tornado. Press ← or → on the +Control Pad to change his direction as he moves.

Needle Using Needle will make Kirby come to a full stop even on a slope. Remember to make adjustments when Kirby is moving at a fast speed.

Fireball This lets Kirby turn into a fireball, making him accelerate quickly. Kirby can move a greater distance for a pre-set period of time. If Kirby hits a bumper, he bounces back.

U.F.O. (Limit: 10 seconds)

This lets you turn Kirby into a U.F.O. With this, he can fly at a constant speed. You can make Kirby move at right angles by pressing ← and → on the +Control Pad. If Kirby rams into a bumper, he can no longer use this power.

* To quit using this power, press the B Button.

Kirby loses his special powers if he falls off the course or runs out of tomatoes. You can extend Kirby's power to the next hole as long as his power lasts. However, special powers are only good for one course. Once Kirby completes a course, he loses his special powers.

When Kirby falls off course....

The panel stops flashing

Battle Against King Dedede

Help Kirby battle against King Dedede after completing all eight rounds in a one-player game. The king has ordered his strong henchmen to stand guard and wait for Kirby's arrival. Go after King Dedede and retrieve the stars of Dream Land.

- ✱ Make sure you have many balls in stock when you confront King Dedede in a battle.
- ✱ The power meter does not appear on the screen when you battle with the king since you can shoot balls at maximum power at any time.

Continuing a Game

Continuing a Game (1-Player Game)

The game is over when you run out of balls. The screen shown at right appears and lets you select whether to continue or end the game.

Continue	Return to the Course Selection screen to replay a game you couldn't complete.
Game End	Return to the Title Screen to start the game all over again.

Return

To return to the Course Selection or Title Screens during game play, open the panel in the screen shown at the right using the START Button.

2-Player Game Rules

Information Panel

✱Rules are the same for 1-Player and 2-Players games. However, the following rules are different.

●Energy Gauge

Each player has six energy tomatoes. When a player uses up all his tomatoes, that player must sit out a turn.

●Scores

Players compete for points in 2-Player games. This shows the total scores of both players for the course being played.

●1st and 2nd Player Conditions

This shows what special powers players have or what powers they have exchanged. For Player Two, Kirby is yellow.

Course Selection

You can choose any of the four courses listed in the Course Selection screen. Press ← or → on the +Control Pad to make your selection. Press the START Button to activate your selection.

✱You are eligible to receive prizes offered in the 2-Player game if you receive medals for all 8 courses in the 1-Player game.

Whispy Woods Course

Mr. Shine & Mr. Bright Course

Kracko Course

Gordo Course

The scores for 2-Player games are based on a point system. The player with the most points scored for each round of 8 holes becomes the winner of that particular course. When players complete a course, the scores for both are shown. The running scores for both players are shown in the Course Selection screen.

Quit

When you want to quit play or return to the Title Screen, open the panel in the screen shown at the right with the START Button. Press the A Button to activate your selection.

Setting Up Handicaps

This screen allows you to decide which player gets to play first and to set up handicaps for each player.

Each player rolls the dice. Press the A Button to stop the dice and show a number. The player with the higher number gets to play first. If both players roll the same number, they must roll the dice again.

Select the following items by pressing \uparrow and \downarrow on the +Control Pad. Set up handicaps by pressing \leftarrow and \rightarrow on the +Control Pad.

SHOT POWER		This lets you vary the power of a shot and gain more distance.	
100% Power	90% Power	80% Power	
GUIDE LENGTH		This lets you select how many bounces Kirby must make before a guideline appears.	
3 Bounces	2 Bounces	1 Bounce	
MARKER SPEED		This lets you select the speed of the marker to set the top and back spins.	
Normal	Slightly Fast	Fast	

Move the cursor to the **Exit** command using the +Control Pad. Press either the START or A Button to activate the above items.

Rules

The first player starts off the game. Players then take turns taking shots. The first player's stars are shown in pink and the second player's stars are shown in yellow. If your opponent's ball hits your star, that star changes color and your opponent scores a point. This also works the other way around.

Your opponent's ball hits your star...

Your opponent scores a point

The stars continue to change colors until one of the players hits Kirby into the ball cup. That player gets to play first in the next hole regardless of the score.

Scoring

When all of the enemies, except the last one, have been defeated, the last enemy turns into a cup with two stars appearing above it. You must hit these stars before falling into the ball cup to score points.

★ Score two points when you hit the stars positioned above the ball cup.

The points scored by each player appear in the upper right and left corners of the screen.

Energy Tomatoes

Each player gets six tomatoes at the start of the game. A player loses one tomato for each hit made. When a player loses all six tomatoes, that player sits out a turn. The player gets four tomatoes when resuming the game.

● You can make your opponent lose a tomato by hitting that player's ball.

✱ You can damage your opponent even more if you have special powers.

● If you drop your ball outside a map, you lose two tomatoes.

● The player whose ball falls into a ball cup gets two tomatoes regardless of how many points that player has.

✱ For 2-Player games there is no limit on the number of balls carried over to the next game.

Exchanging Special Powers

When your opponent has special powers, you can take away that power. Hit your opponent's ball to make that power yours.

When both players have special powers, they can exchange powers by hitting each other's ball.

*You cannot exchange powers if your opponent has the Needle or Stone powers, or when you hit your opponent's ball while using your powers.

Enemies, Switches, Traps & Tricks

Harmless Characters

These characters have no special powers, so they cannot hurt Kirby. They turn into stars when Kirby hits them.

Waddle Dee

Squishy

Broomhatter

Kabu

Floating Characters

These characters float in the air and are difficult to hit. Shoot them when the shadows of these characters overlap with the guideline shadows. Be sure to adjust Kirby's power when hitting these characters.

Harmful Characters

If Kirby hits Gordo, you lose a tomato. You cannot turn Gordo into a star.

If one of Kracko's beams hits Kirby, you lose a tomato. Help Kirby destroy Kracko by using Spark powers.

Transformer (2-Player Game)

When Kirby defeats this enemy, the power display turns into a slot machine. Press the A Button and the power that appears becomes yours. The slot machine does not appear if you pressed the A Button while hitting this enemy.

Day and Night Switch (2-Player Game)

If you press one of the switches shown at right, you can exchange points with your opponent on that particular hole. The switches can only be used **three times per hole**.

Traps and Tricks

Kick Panel

If Kirby hits this panel from any direction, he will roll in the direction shown by the arrow on the panel.

Danger Zone

If Kirby falls onto this panel, you lose one tomato.

Warp Panel

This lets you move Kirby instantaneously from one panel to another. If the warp panel has a triangular mark, Kirby moves out in that direction. If the panel is red and has no triangular mark, you can continue to move Kirby out in the same direction that he entered.

Triangular Mark

No Triangular Mark
