WELCOME TO NHL® 96!

There's been plenty written lately regarding Global Warming, El Niño, and the like, but North Americans are experiencing a different weather phenomenon altogether—the arrival of the second ice age!

And, in contrast to the idle pace of glaciers extending from the polar ice caps, this time it's spreading like wildfire. Sheets of ice measuring up to 200' x 85' have formed as far south as Tampa Bay, Anaheim, and Dallas, and there's no sign of a warming trend in sight.

EA SPORTS brings you as close as you can get to the NHL without donning a parka!

The Best Just Got Better — New Features for 96:

- ✓ Multiple Skill Levels — Work your way through the ranks from Novice, to Intermediate, to Expert.
- ✓ Fighting Option
- ✓ New Player Moves — Drop Passes, Fake Shots, Spin-o-Rama, Quick Stop, and more.
- ✓ New Graphics and Player Animations — Lie down on "D" to block shots, flip your opponents with extreme body checks, and much more.
- ✓ Enhanced Sound Effects and Music — Stadium specific crowd chants and organ tunes; vocal referees.
- ✓ Improved Gameplay and Computer AI — Advanced goalie and defense intelligence; faster overall gameflow.
- ✓ Multiple Injuries to Players and Goalies

NHL96

STARTING THE GAME

1. Turn OFF the power switch on your Super Nintendo Entertainment System®.
- ✓ **WARNING:** Never try to insert or remove a game pak when the power is ON.
2. Make sure a Controller is plugged into the controller socket 1 on the Super NES®.
- If you're playing against a friend, plug the other Controller into controller socket 2.
3. Insert the game pak into the slot on the Super NES. Press firmly to lock the cartridge in place.
4. Turn ON the power switch. The EA SPORTS logo appears. If you don't see it, begin again at step 1.

GAME SETUP

When you play *NHL 96*, the rink is in *your* house. You set the game options and regulations; Gretzky, Bure, and Gilmour conform to those rules—or they don't skate!

- Press **START** to continue.
- ✓ Option settings are saved in memory as defaults until you change them again.

NHL96

PLAY MODE

EXHIBITION: A one-game exhibition. Play with your friends or test your hockey skills against the expertise of a CPU (computer)-controlled opponent.

SEASON: Set up and play through an entire NHL season, complete with best-of-7 playoff series and season-end awards ceremony.

PRACTICE: Design plays and run your favorite team through drills in real game situations. Practice mode is also a great place to work on your penalty shot technique.

SKILL LEVEL

NOVICE: For beginners and players having trouble scoring. You'll notice slower performance by CPU-controlled teams, from skating and shooting to the goalie's reaction time.

INTERMEDIATE: CPU-controlled opponents play to their ability but never really rise to a championship level of play.

EXPERT: Unless you've come up through the ranks of *NHL 96*, prepare for the humiliation of a lifetime! The skating is quick, the body checks are lethal, and the passes are right on the tape.

PERIOD LENGTH

5/10/20 MINUTES: Select a period length. A complete game consists of three periods; the NHL plays 20-minute periods.

- ✓ Overtime periods following Exhibition and Season games are always five minutes long.

GOALIES

MANUAL: You can take over control of your team's goalie and challenge the puck handler.

AUTOMATIC: Let the CPU control your team's goalie. He'll save as well as his real life counterpart, but when he's in possession of the puck, control is transferred back to you.

USER RECORDS

ON: Keep an ongoing record of your personal *NHL 96* performance. User Record data for up to eight players is displayed on the Record Holders screen.

OFF: Play without User Records.

PENALTIES

OFF: No penalties are called. Ideal for a faster paced game with fewer faceoffs, and for those players still learning the game.

ON: The refs call the game just as they would in an actual NHL game. See *Rules of the Game* on p. 30 for explanations of penalties and violations.

NO OFFSIDES

LINE CHANGES

OFF: Players never fatigue. Your best line remains on the ice for the duration of the game.

ON: You must take notice when your players show signs of tiring. Call for substitutions on the fly or wait until the next faceoff, but keep your players rested!

AUTOMATIC: Lines are cycled automatically before each faceoff. Players' energy levels never dip below 100%.

ROSTERS

DEFAULT: Play *NHL 96* with the accurate team rosters from the 1994-95 NHL season.

WITH TRADES: Play with the trades you've authorized and any players you've created. See *Transactions*, p. 25.

FIGHTING

ON: If you don't mind the occasional break in play while a couple of goons mix it up, choose ON.

OFF: No matter how physical the game gets, the players simply brush it off.

ORGANIZING AN EXHIBITION GAME

RULES OF THE GAME

Hockey is an easy game to understand, in that it consists of relatively few rules compared to other major professional sports. The two most commonly violated rules, Offsides and Icing, are described below, along with Breakaways and the inevitable penalty violations you'll soon come to know and love.

OFFSIDE

In *NHL 96*, a play is offside any time an attacking player precedes the puck across the blue line and into the attack zone.

Two-line pass offside violations, familiar to fans of the NHL, are not called by *NHL 96* officials.

ICING

Icing occurs when a player shoots the puck from his half of the ice down to the other end of the rink and across the goal line, and an opponent other than the goaltender touches the puck first.

Icing is not called on a team short-handed due to a penalty killing situation.

BREAKAWAY

A breakaway is recognized when the offensive player with the puck skates past the defenders in the attack zone creating a one-on-one situation with the opposing goalie.

A single tone sounds to let you know when a breakaway occurs. A last ditch effort to "take down" the puck handler from behind results in a penalty shot.

PENALTIES

When an official judges a player to be in violation of one of the infractions below, that player is directed to the penalty box where he waits out the duration of his penalty time. The player is not replaced on the ice, rather, his team skates with one fewer player.

If a third player from a team is sentenced to the penalty box, that player is replaced with a player from the bench but his penalty time does not begin until one of his two teammates is released.

A team with fewer players on the ice than its opponent is labeled Short-Handed, or Penalty Killing, while a team with more players on the ice is on a Power Play.

If a team skating on a Power Play scores a goal against the Short-Handed team, one player from the Short-Handed team is awarded early release from the penalty box.

Four tones sound when a player's time in the penalty box is up, letting you know he's about to hit the ice.

Boarding (Minor: 2 min, Double Minor: 4 min)

A Charging violation that sends your opponent crashing into the boards.

Charging (Minor: 2 min, Double Minor: 4 min)

Applying a body check after you have taken more than two deliberate strides toward your opponent.

Cross Check (Minor: 2 min, Double Minor: 4 min)

Hitting your opponent with both hands on your stick and no part of the stick on the ice.

Elbowing (Minor: 2 min, Double Minor: 4 min)

Delivering a check with your arms or elbows instead of with your body.

Fighting (Major: 5 minutes)

The moment you square off against an opponent and drop your gloves. A penalty is incurred, even if no blows are struck.

High Sticking (Minor: 2 min, Double Minor: 4 min)

Carrying your stick above shoulder level when skating toward an opponent.

Holding (Minor: 2 minutes)

Using your hands to grab either your opponent or his stick.

Hooking (Minor: 2 minutes)

Using the blade of your stick to restrain an opponent.

Interference (Minor: 2 minutes)

Any contact with your opponent's goalie while he is in possession of the puck and within the crease.

Roughing (Minor: 2 min, Double Minor: 4 min)

A particularly ruthless Charging infraction, usually resulting in the injury of your opponent.

Slashing (Minor: 2 min, Double Minor: 4 min)

Using your stick to hit, or attempt to hit, an opposing player.

Tripping (Minor: 2 minutes)

Toppling your opponent by means of either your stick, knee, foot, arm, hand, or elbow.

Double Minor penalties are called on exceptionally vicious penalty violations. These violations usually result in an injury to the player on the receiving end.

GLOSSARY OF HOCKEY TERMS

Attack Zone: The area of ice between your opponent's blue line and goal line.

Backchecking: Skating back up ice toward your goal line while covering an attacker.

Blue Lines: Two 12-inch wide blue lines drawn from sideline to sideline across the rink. The blue lines are positioned 60 feet in front of each goal, dividing the ice into three zones.

Boards: The wooden barriers enclosing the ice surface of the rink. Boards are topped-off by a barrier of shatterproof glass to protect both players and spectators.

Checking: Impeding the progress of a player with the puck, either by blocking his progress with your body or with your stick.

Crease: The 6' x 4' area, marked off by red lines and painted blue, directly in front of each goal.

Defensive Zone: The area of ice between your blue line and your goal line.

Deke: The use of superb stickhandling and skating to fake or deceive an opponent into committing himself.

Forechecking: Checking your opponent in his defensive zone in an effort to regain the puck and continue your attack.

Goal Lines: Two red lines drawn from sideline to sideline across the rink. The goal lines identify the plane of the goal and are used in determining icing infractions.

Icing: Shooting, passing, or clearing the puck from behind the red line over the opposite goal line without passing through the crease. When this happens, icing is called if a defenseman reaches the puck before an offensive player.

Neutral Zone: The area of ice in the center of the rink between the two blue lines.

Penalty-Killing: The defensive maneuvers and lines used while a team is short-handed.

Power Play: An organized attack by the team at full strength against the team playing a man or two short due to a penalty.

Red Line: The 12-inch wide center line drawn from sideline to sideline, bisecting the rink into two equal segments.
